SECTION I - FINDINGS AND PURPOSE

The 1986 Surgeon General's Report on "The Health Consequences of Involuntary Smoking" clearly documents that nonsmokers are placed at risk for developing disease as a result of exposure to environmental tobacco smoke or secondhand smoke. In 1993, the Environmental Protection Agency classified environmental tobacco smoke as a known human carcinogen. Numerous studies have found that tobacco smoke is a major contributor to indoor air pollution, and that breathing secondhand smoke is a cause of disease, including lung cancer, in nonsmokers.

Exposure to environmental tobacco smoke presents a serious and substantial public health risk. Of particular concern is the workplace environment of nonsmokers, where they may be subjected to sustained, involuntary exposure. At special risk are children, the elderly, individuals with cardiovascular disease, and individuals with impaired respiratory function, including asthmatics and those with obstructive airway disease.

Studies have shown that vending machines afford an opportunity for unauthorized sale of cigarettes to minors. Evidence further demonstrates that tobacco is extremely addictive. Approximately 80% of all smokers begin smoking before age eighteen and more than 3,000 young people begin smoking every day in this nation.

The Cape Cod Regional Tobacco Control Program Advisory Panel (comprised of representatives of the Boards of Health from the towns of Barnstable, Bourne, Brewster, Chatham, Dennis, Eastham, Falmouth, Harwich, Mashpee, Nantucket, Orleans, Provincetown, Sandwich, Truro, Wareham, Wellfleet and Yarmouth) urges all public places and workplaces to become voluntarily smokefree before May 1, 1996.

This regulation is presented as a model regulation to be adopted uniformly to the extent possible by the 17 Boards of Health comprising the Cape Cod Regional Tobacco Control Program. The intent of a uniform regulation is to minimize any potential economic impact to the business community which might result from varying regulations throughout the region. These regulations are proposed as an integral part of efforts by the Cape Cod Regional Tobacco Control Program and other community programs to educate our communities about the dangers of tobacco use and secondhand smoke.

SECTION II - AUTHORITY

The Town of Yarmouth pursuant to Massachusetts General Laws Chapter 131, Section 31, adopts these regulations as reasonable health regulations designed to protect and improve the health of its residents.
