

STAY DRY

A FEMA MAPPING PROGRAM

Stay Dry is a program FEMA created to be used with Google Earth to allow you to easily see if your home or business is located in a flood zone. Remember, you have to have Google Earth Installed for this program to work. Below you will find a series of links that will bring you to user guides and more information regarding this program, as well as the download link itself. Upon downloading, click the link and the program should launch in Google Earth automatically assuming you have the program and it is up to date.

If your home does lie in a flood zone there are guides online and on the Town of Yarmouth website under Emergency Preparedness regarding what one can do to mitigate the effects of flooding on their property. If you have any questions do not hesitate to contact a FEMA spokesperson on your local Emergency Management organization.
